Battery and Hardware Installation

Keyboard Battery Installation
1. Open the battery cover on the back of the keyboard
2. Insert the included AAA battery as the diagram on the battery tray indicates
3. Close the battery cover

Mouse Battery Installation
1. Open the battery cover on the bottom of the mouse
2. Insert one, or two of the included AA batteries as the diagram on the battery tray indicates*
3. Close the battery cover

USB Receiver Installation
USB receiver is located underneath the mouse

1. Plug the USB receiver into an available USB port on your computer
2. Your Operating System will start to install the device driver automatically
3. No additional software is needed. Enjoy your new keyboard and mouse!

* Weight Control / Energy Management
The mouse can be used with a single AA battery to save weight, but battery life will be significantly shorter.

Customize Mouse DPI

The mouse is equipped with a customizable DPI switch. The default setting is 1500 DPI. Simply adjust the DPI sensitivity to your liking by pressing the + / - buttons on the mouse. Pressing the + / - buttons will adjust LED to Red, Green, or Orange.

Each color represents a different DPI value:

Red: 1000 DPI
Green: 1500 DPI
Orange: 2000 DPI

Compliance Information

FCC Statement
This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential setting. This product generates, uses, and can radiate radio frequency energy and, if not installed and used as directed, it may cause harmful interference to radio communications. Although this product complies with the limits for a Class B digital device, there is no guarantee that interference will not occur in a particular installation.
FCC ID: QLEKBGKM552R
FCC ID: QLEMSGKM552R
FCC ID: QLERXGKM552R

CE Compliance
This device has been tested and found to comply with the following European Union directives: Electromagnetic Capability (2004/108/EC), Low Voltage (2006/95/EC) and R&TTED (1999/5/EC).
